Washington, District of Columbia, United States

CIAN Diagnostics

Lab Integration Engineer
January 2020 - October 2020 (10 months)
Frederick, Maryland, United States

I was responsible for the programming, and operation of various robotic automated liquid handling platforms; running a suite of medical grade resin printers; interfacing with IT, laboratory technicians, management, and inventory; and optimizing workflows. my position also requires competency in qRT-PCR analysis, manual extractions, reagent preparation, and cGMPs.

Brigham Young University - Idaho

Teaching Assistant
February 2020 - June 2020 (5 months)
Rexburg, Idaho, United States

Assisted Dr. Moncayo as a Lead Teaching Assistant in Introduction to Econometrics and Python for Economist classes. Performed as a research assistant for Dr. Moncayo's original research into Tax Loopholes.

Chick-fil-A-Franchise

Sales and Brand Growth Supervisor
August 2019 - June 2020 (11 months)
Kentlands

Walter Reed Army Institute of Research
Student Researcher
May 2018 - September 2018 (5 months)
Silver Springs MD

I designed an original optimization experiment for an ELISA protocol to help the Behavioral Humor utilizing a distributed Linux system to run and gather results data.

I developed a generalized model and working 'lab' theory based on research findings to help inform other D.o.D / Army medical research projects.

Analyzed and summarized vital data findings in bi-weekly reports to cross-functional teams utilizing python, SQL, and matplotlib.

Created an original poster presentation on findings and relayed results to non-technical and technical stakeholders.

Brigham Young University - Idaho
1 year 5 months

Student Researcher
January 2018 - May 2018 (5 months)
Pocatello, Idaho Area

Investigated upper-division grading policies of Organic Chemistry to determine optimal laboratory and classroom hour combinations

Interpreted data set results by leveraging Python and Excel to formulate a statistically relevant optimization range

Authored a poster presentation and communicated results at a Research and Creative Works conference and to faculty stakeholders

Findings and recommendations were partially implemented by Brigham Young University – Idaho Chemistry Department

Math Tutor
January 2017 - April 2018 (1 year 4 months)
Rexburg ID

Worked in a drop-in lab as well as one-on-one instruction with students.

Provided support to online staff members as an additional student resource

Developed tutor support guides for online chat work that aided multilingual students

United States Postal Service

Data Analyst Intern-USPS Office of Internal Investigation
October 2017 - December 2017 (3 months)
Silver Spring, Maryland, United States

Education

UC Berkeley School of Information

Master of Science - MS, Information and Data Science · (February 2022 - August 2024)

Brigham Young University - Idaho

Bachelor's Degree, Economics · (2016 - December 2020)
